DAVID PRICE P2, 9th in Ireland, May 2011

I would recommend DBS to anybody as the lecturing team are very dedicated and do their utmost to help you achieve your goals. I also chose DBS because the fees for studying 3 CIMA courses was very competitive. The convenient city centre location in relation to where I work and the subsidised parking were additional factors in forming my decision.

GARY MONKS E3, 3rd in Ireland, F3, joint 4th in Ireland & P3, joint 8th in Ireland, May 2011

I decided to do my CIMA Studies with DBS as I had completed my degree in accounting and finance and was aware of the reputation and standard of the lecturers within the Professional School. DBS are fully committed to ensuring all students have the best possible chances to not just pass the exam but excel in them, supported by the professional team and the facilities within DBS. The QBR is also beneficial as it gives you a wakeup call for the exam by completing the questions under exam conditions and getting instant feedback means the questions as well as your interpretation of the key points is fresh in your mind when reviewing the suggested solutions. The tips from the markers and lecturers also help when sitting the exam.

LING LING BAI F3, 2nd in Ireland & E3, 4th in Ireland, May 2011

I would highly recommend DBS for anybody doing CIMA classes. Their reputation in professional accounting education is excellent. The QBR should definitely be attempted, it's good practice and a great way to identify your weaknesses before the real exam.

PAUL DALY E2, 1st in Ireland

My finance colleagues recommended DBS to me so I decided to go on their recommendation. I believe it was a great decision as DBS offer flexible learning options. The standard of the lecturers is second to none and they are always available to go the extra mile when it comes to helping students achieve high marks and succeed in the exam.

DAVID FARRELL T4, 10th in Ireland (PC), March 2011

DBS has a great reputation for delivering strong results and high pass rates also the timetable had a good mix of evenings and weekends to ensure there was a decent work, study and life balance. The lecturers are consistently accommodating and practical in their dealing with the students and focus on achieving successful results first time. Class sizes are small enough to facilitate an inclusive work environment and this encourages students to share information and techniques to ensure all students make the most of the class in order to pass the exam.
